

DAVID MWEHU MUNDE

Final-Year Software Engineering Student | Junior Software Developer

Lubumbashi, DR Congo | +243 842 977 433 | davemunde9@gmail.com | dave-mwehu.vercel.app | github.com/dave-mwehu | linkedin.com/in/dave-munde

SUMMARY

Final-year Software Engineering student at UDBL building practical mobile, web and backend systems. Project work spans offline-first applications, APIs, databases, local AI and end-to-end workflows for education, financial services and connected environments.

EDUCATION

Université Don Bosco de Lubumbashi (UDBL)

Software Engineering - Licence 4 / final year
2023 - 2027 (expected) | Lubumbashi, DR Congo | Annual average: 16/20

SELECTED PROJECTS

OPENFLOW

School Management Platform | 2026 - Present | Private repository

- Built a grades-to-report-cards workflow with JSON, HTML and PDF outputs, periodic recalculation, ranking rules and withdrawn-student exclusions; validated by 34 passing report-card tests.

P LEVEL

Financial Services Platform | Ongoing | Private repository

- Structured transaction and savings accounts, investor and agent balances, configurable fees and approval workflows; validated 30 public/portal Next.js pages and six staging services.

INTELLIEDITOR

Offline AI Text Editor | Academic team project | 2026

- Contributed the AI/NLP layer of a C11 editor by integrating llama.cpp and a local Qwen model for cloud-independent writing assistance, alongside CMake, Hunspell and Scintilla.

SUPERVOLT

Low-Voltage Grid Monitoring | Academic team project | 2026

- Connected sensors, Arduino and NEO-6M GPS to MQTT, FastAPI, React and WebSocket for local anomaly detection, live supervision and remote load-shedding commands.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES: Python, Java, C, Kotlin, JavaScript, TypeScript, SQL

MOBILE & WEB: Flutter, Android, React, Next.js

BACKEND & DATA: FastAPI, Django, REST APIs, PostgreSQL, Firebase, Supabase

ENGINEERING: Git, GitHub, Linux, Docker, CMake, automated testing, UML, technical documentation

AI & CONNECTED SYSTEMS: llama.cpp, local LLMs, MQTT, WebSocket, Arduino

TRAINING

GitHub Foundations - DataCamp
Statement of Accomplishment | Aug 26, 2026 | 9 hours
